MEDICAL MICRODERM-ABRASION SMARTPEEL™

The results of the SmartPeel™ are immediate. The combination of skin exfoliation and slight suction, stimulates production of new, living cells at the base level of the skin. This causes cellular turnover and improved blood flow.

DERMAWAVE™ ULTRASONIC SKIN REJUVENATION

All Skin Types - All Ages

Ultrasound is used to drive lipid-soluble vitamins, moisturizers, and healing agents deep into the skin. Without the use of Ultrasound, these important nutrients only penetrate very superficially into the top layers of skin. DermaWave ultrasound also forces collagen and elastin reproduction which gives our skin suppleness and elasticity erasing the signs of aging.
