

ACHIEVE BEAUTIFUL SKIN WINS EMERGING BUSINESS OF THE YEAR 2014

Viera, Florida, September 29, 2014 - Jeanne Whitman, owner and operator of Achieve Beautiful Skin in Viera, Florida, has won the Emerging Business of the year award. Hosted by the Cocoa Beach Regional Chamber of Commerce Business Resource Council, the 26th Annual Business Champion of the Year Awards ceremony was held on Friday, September 26th at the Radisson Resort at the Port.

Jeanne Whitman graciously accepted the award by thanking her family for inspiration and her mentor, Tracy Stroderd of EverythingBrevard.com and Synergistic Marketing, for support. She credits her husband's ability to "just listen" and Tracy's ability to be "present" to her business success. Jeanne also thanked the Women's Business Center at Florida Tech "for their unfailing support and commitment."

The most hard work and commitment came from Jeanne, herself. Achieve Beautiful Skin has been so successful is because she stays ahead of the times and always seeks improvement.

Jeanne is now offering pain free and fast Emvera Diolux Laser Hair Removal treatments. Her goal is to provide a more pleasant experience for her clients and it appears that she has delivered.

Emvera Diolux allows Jeanne to perform hair removal treatments in less time and with less pain than other methods. Clients enjoy the quick treatments that can cover a large area in as little as seven minutes. Best of all, the chilled tip cooling system reduces the warm sensations that made the procedure less than pleasant for some clients.

Achieve Beautiful Skin has quickly earned the reputation of being a forward-thinking, upscale medi-spa. Jeanne says, "I always aim to provide the best possible treatments available for my clients." She added, "They are worth it, and more."

Jeanne has a history of incorporating high tech treatments into her list of services. Earlier this year, she launched a line of luxury therapies that have become very popular. Achieve Beautiful Skin clients have several state-of-the-art, non-invasive services to choose from, depending on their needs. Each treatment safely enhances beauty with minimal downtime, exactly what a busy professional needs.
