

# Achieve Beautiful Skin

8045 Spy Glass Hill Rd Suite 101, Viera, Florida 32940

Achieve Beautiful Skin is a local medi-spa that offers medical-quality spa services in an elegant and relaxing atmosphere under the direction of Dr. Pinsky. The spa was founded in 2012 and is solely operated by the owner, Jeanne Whitman, CME, a qualified Medical Aesthetician, Laser Specialist and Electrologist. Along with her extensive experience and credentials, Jeanne has a genuine concern for her clients' overall health and an innate passion for her work. The pure enjoyment and enthusiasm she experiences from helping people look and feel beautiful has attributed to the success of her business.

Jeanne always dreamed of having her own spa. She was inspired at a very young age by her sister, Carol, who was a beauty queen. Jeanne spent 3 years as a Miami Dolphins Cheerleader and then became a stay-at-home mother to raise her two children. She always enjoyed volunteering her time and helping others. Since 2008, she has been sponsoring the "Decorate Your Bra" event for breast cancer awareness for the American Cancer Society. One year, she won the Volunteer of the Year award with over 1800 hours of time donated to the Broward County School District. In addition to her generous nature, Jeanne feels compelled to help other women develop and keep a positive self-image. She had no choice but to eventually follow her dream and open up her own spa.

Jeanne became certified as Medical Aesthetician, Laser Specialist and Electrologist and began working in the field in 2004. She quickly gained the experience and confidence needed to open up her own business. Achieve Beautiful Skin was opened in 2012 and is located in Viera, Florida. The spa offers a safe and comfortable atmosphere to receive medical-quality spa services. Services that are offered include facials, microdermabrasion, laser hair removal, Rejuvapen Therapy, Ultra Sonic Skin Rejuvenation, and IPL (Intense Pulsed Light) Treatments. The spa is decorated in soothing pastel colors, designed to relax you the moment you walk through the door. All of the equipment is state-of-the-art and kept in a medical-grade clean condition.

Achieve Beautiful Skin has only been open for a short time and already has an excellent reputation in the community. Jeanne has great attention to detail and wants to help you look and feel your best. She has a way of making you feel comfortable enough to discuss your real concerns about your appearance. Jeanne gets great satisfaction out of helping you find solutions and improve your overall image. She has even been called the "Image Consultant".

Jeanne invites you to learn more about Achieve Beautiful Skin and find special offers by visiting her website, [achievebeautifulskin.com](http://achievebeautifulskin.com) or call (321) 720-5473 and book an appointment, today!

■ ANTI-AGING FACIALS  
The Anti-aging treatment uses professional skincare lines and techniques that are designed to slow the aging process, brighten skin and reduce wrinkles.

■ CHEMICAL PEELS  
An innovative treatment that succeeds by stimulating gentle healthy change deep in the skin to create a beautiful, renewed complexion. Peels address acne, uneven skin tones, brown spots, travelers dry, dehydrated and dull/lined looking skin, reduces scarring, fine lines and large pores clarifying the complexion.  
// 60 minutes • Specific Peels below

■ MEDICAL MICRODERM-ABRASION SMARTPEEL™  
The results of the SmartPeel™ are immediate. The combination of skin exfoliation and slight suction, stimulates production of new, living cells at the base level of the skin. This causes cellular turnover and improved blood flow.  
// 60 minutes

■ DERMAWAVE™ ULTRASONIC SKIN REJUVENATION  
All Skin Types - All Ages  
Ultrasound is used to drive lipid-soluble vitamins, moisturizers, and healing agents deep into the skin. Without the use of ultrasound, these important nutrients only penetrate very superficially into the top layers of skin. DermalWave ultrasound also forces collagen and elastin reproduction which gives our skin suppleness and elasticity erasing the signs of aging.  
// 60 minutes

Signature Peel (Aging, Dehydrated, Dull)  
Organic (Pregnant, Teens)  
Pigmentation (Level I or II)  
Acne Prone Peel
